**BEIGE TRAVERTINE**

A close-up photograph of human skin. A large, irregular, reddish-brown lesion is visible in the upper left quadrant. The lesion has a mottled appearance with varying shades of red and brown. The surrounding skin is a light, fair tone. The overall texture of the skin appears slightly grainy.

**Estremoz Médio**

Estremoz Tigre

Marron Imperial

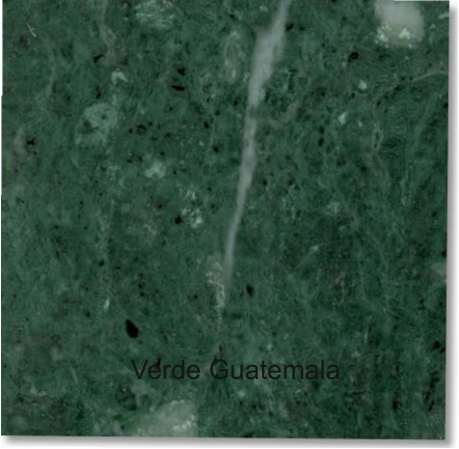

The image shows a close-up of a light-colored marble surface with a complex, organic pattern of veins. The primary color is a pale, off-white or light beige. Interspersed throughout are delicate, irregular veins of a soft, muted green and a warm, light tan or peach color. The texture appears smooth but with natural, subtle variations in tone and pattern, characteristic of high-quality marble. The lighting is even, highlighting the fine details of the stone's grain.

**Crema Marfil**

Travertino

The image shows a close-up of a piece of textured, green paper. A prominent vertical crease runs down the center of the page. The paper has a mottled appearance with various shades of green and several small, dark, irregular specks scattered across its surface. The lighting is somewhat uneven, with a slightly brighter area near the top right corner.

**NEGRO MARQUINA**

**NEGRO RUIVINA**

The image displays a close-up view of Persian Green Marble. The surface is characterized by a complex, organic pattern of veins in various shades of green, ranging from light sage to deep forest green. These veins are set against a base color of a warm, earthy tan or beige. The overall appearance is highly textured and reminiscent of natural stone or aged parchment. The lighting is even, highlighting the intricate details of the veining.

Red Travertino

**VERDE AROCHE LIGHT**

The image displays a close-up view of a yellow travertine stone surface. The stone has a warm, golden-yellow hue with prominent vertical veining and natural, irregular textures. The surface shows signs of being a natural stone, with some darker, more mineral-rich areas and lighter, more porous sections. The overall appearance is that of a high-quality, natural stone material.
